EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

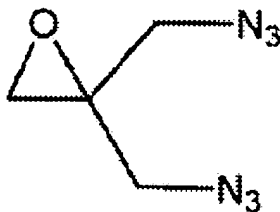

Authorization for this examiner's amendment was given in a telephone interview with applicants' counsel Robert C. Beam on 2 May 2005.

IN THE SPECIFICATION –

The abstract of the disclosure has been replaced by the following new abstract:

ABSTRACT

The compound 2,2-bis(azidomethyl)oxirane, whose structure is depicted below, is disclosed:

**IN THE CLAIMS –**

In the single claim (claim 1), the parenthetical expression "(10)" appearing at the end of claim, after the word *oxirane* and before the period, has been deleted.

end of amendments

Allowable Subject Matter

The single claim is allowed.

The following is an examiner's statement of reasons for allowance:

A search of the prior art did not afford any disclosure of the compound 2,2-bis-(azidomethyl)oxirane.

Mono-(azidomethyl)oxirane is known from:

Ingham et al, "The Addition of Azide Ion to Epoxides" Journal of Organic Chemistry, vol. 21, pages 373-375 (1956).

,and also from US 6,815,522 (Sanderson et al), where the compound is taught as a monomer for making energetic polymers.

Neither reference suggests the bis azidomethyl compound, nor does either reference enable the production of the bis-substituted oxirane.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion
